Transportation and Communication

The Port of Boston. By EDWIN J. CLAPP. (New Haven: Yale University Press. 1916. Pp. xii, 402. \$2.50.)

This book had its origin in a private report prepared and submitted by the author as an expert adviser selected by the directors of the port of Boston to study the various traffic and operating problems of that great North Atlantic seaport and to suggest methods for developing the traffic of the Boston port in competition with other Atlantic ports. Professor Clapp had previously demonstrated his familiarity with the conditions affecting foreign
